Answer key

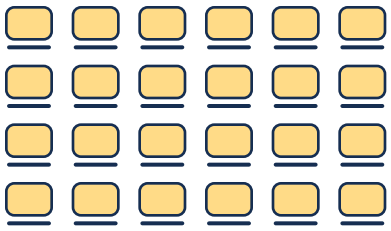

Front-row seats

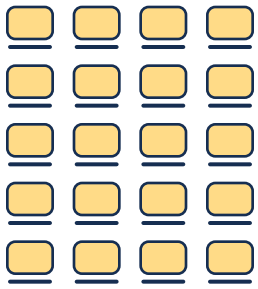

Look at each seating plan. Multiply to find how many seats it holds.

3 rows × 5 seats = 15

4 rows × 6 seats = 24

5 rows × 4 seats = 20

3 rows × 8 seats = 24

Two sections hold the same number. Which ones?

4 × 6 and 3 × 8 both hold 24 seats.
