Answer key

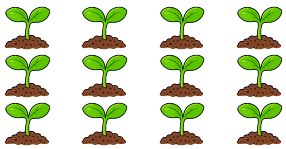

Seed trays in rows

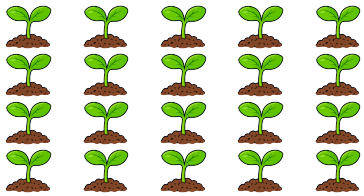

Count the rows and plants per row. Multiply to find each total.

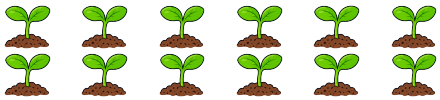

2 × 3 = 6

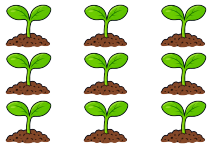

3 × 4 = 12

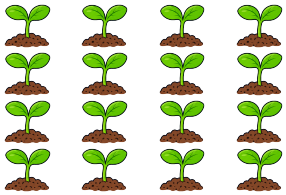

4 × 5 = 20

2 × 6 = 12

3 × 3 = 9

4 × 4 = 16

Find two trays with the same total.

3 × 4 and 2 × 6 both hold 12 seedlings.
